may be satisfied.

Says No Priction in France.

Chairman Orndorff introduced Lieut.

Leon R. Guriey, engineer corps, who cullined the methods of fransportation in France and answered questions.

"Organization is the keynote in France." began Mr. Guriey. There is no friction, no discord, no fealousy, but every one has found his place and fills it. The apirit among our men is help the other fellow."

"Ninety days" supplies of every kind are always on hand, so that if the sea transport should fail, our solutions ared not want for such a period.

Committees of Men and

We respectfully ask every housewife in El Paso to answer the following

Is your time valuable to yourself, your family and your country? Is it not a big time saver (as well as money saver) to be able to order all of your "eats"-Groceries, Meats, Fruits and Vegetables-at one time over the phone, and have all of them delivered to you at one time each day? You can do this by phoning your order to either of the six Standard Cash

Are you aware of the fact that we can deliver your Groceries cheaper than you can come after them in your own car? We answer this question, YES. Each of you have read where the United States Government is asking every loyal American to help save gasoline and auto tires. When you motor after your Groceries you are helping waste both. Why? you ask, Because, if you and your neighbors in your block, say 6 to 10 of you, each get out your car and drive for your Groceries and multiply this number of cars from your block by the number of blocks in your neighborhood and you will easily see the great amount of gasoline used and the unusual wear and tear on your auto tires. Suppose each of you telephone your orders to one of the Standard Cash Stores-how will they deliver same and at the same time save each of you individually and collectively a large amount of gasoline and a great deal of wear and tear on your cars and tires? We have the city blocked off in districts. Your neighborhood will be in One DISTRICT. Our auto delivery trucks will leave at a certain scheduled hour and will go up 1 street in your neighborhood and down the other, delivering to you, your neighbor on either side of you and those across the street. You see the point, don't you? One truck covering the entire district, instead of 80 or 100 autos motoring to town and incidentally congesting traffic and increas-

Many thousands of El Paso families are having the Standard Stores deliver their Groceries, Meats, Fruits and Vegetables. Will you not let us deliver yours? We will deliver your orders free of charge, when they amount to \$1.00 or over.

One delivery a day should be enough for any family. Please do not ask for more unless in an emergency.
